

# HEAT & MASSAGE PAD

MODEL 8N

- Portable Heat & Massage for Home, Office, Travel, Gym
- Temporary Relief from Minor Muscular Aches & Pains
- The Most Advanced Heat/Massage Technology

## ***Enjoy The Benefits of Heat & Massage in Your Own Home***

Tension, fatigue, muscle aches and pains ...  
Few of us can afford to have a masseur "on call" twenty-four hours a day to provide relief from our aches and pains. But, with American Massage Products portable massage equipment, you can enjoy the proven benefits of heat and massage in the comfort and convenience of your own home. — any time you need relief.

The Heat and Massage Pad from American Massage Products uses patented Spheroid® Action Massage combined with heat to produce effective results. Unlike a vibrator which creates a single direction, pounding effect, our massage units produce a three-dimensional action. This delivers widely radiating waves of motion that penetrate deeply and smoothly — just like a professional massage!

The built-in heating element adds soothing warmth. You choose the massage intensity and heat level desired — and a timer automatically shuts the unit off at the interval you select. What could be easier!

### ***Use your Sonoid® massage equipment anytime, anywhere — and as often as you like!***

Because it's so easy to use, there's no need to schedule a long block of time for a massage. Even five minutes of heat and massage action from your Heat and Massage Pad may rejuvenate you for hours. Powerful and penetrating, there's no need to disrobe. You can use this equipment at home, at the office or even take it with you on vacation. Read, watch TV, listen to the radio, spend time with your family, or just unwind while you enjoy the relaxing benefits of heat and massage.

### ***Massage and Heat Pad with Detachable Pillow***

Making you comfortable is our primary goal. Because so many customers mentioned that they used a pillow with their Heat and Massage Pad to provide greater comfort when massaging bony areas, we've made a detachable pillow part of our standard package.

The pillow helps to transmit massage action to the desired area while providing a greater level of relaxation and extra cushioning to sensitive areas. The pillow wraps around the motor unit providing quiet operation and enhanced massage benefits. Firmly held in place with dual Velcro strips, the pillow can easily be detached when more direct stimulation is desired.

### ***Easy To Use!***

There are many ways you can incorporate the Heat and Massage Pad into your daily regimen of relaxation. As you begin to use the equipment and learn more about its benefits to your overall health, you'll find your own ways to enjoy the relaxing, therapeutic benefits of American Massage Products.

***WE MANUFACTURE A COMPLETE LINE OF PRODUCTS FOR TOTAL BODY COMFORT —*** • Hand Unit • Car Pal Massage Pad • Adjustable Beds • Heat/Massage Recliners • Professional Therapeutic Massage Table
