BURLINGTON GOLD LEAF DAMASK

SOFT

MEDIUM

FIRM

MATTRESS SETTINGS

Air chamber compressor/inflators (UL approved) are concealed inside, completely out of the way, plug into standard 115v household current and are each operated by an individual hand held control. A built-in pressure release prevents over inflation.

## SONAIR COMFORT CLOUD:

*The adjustable firmness air mattress... the mattress dreams are made of.*

### CONSTRUCTION:

- Beautiful gold leaf ticking adorns this removable pillow top filled with 100% Quilt Flex for long life and resilience.
- The Comfort Cloud is a 10" air mattress made up of a 7" air chamber and 4" of luxurious softness.
- The "Sleep Touch" air pump is located within the air mattress with no cumbersome hoses or wires. UL listed.
- Easy touch control allows ultimate adjustment of firmness from very soft to very firm any minute of every hour, whenever you want it.
- Comfort Cloud has a unique Zip-Open pillow top construction. The top of the mattress zips open for easy cleaning and replacement of all internal mattress parts without leaving your home. All mattress parts are UPS shippable.
- Border support allows you to sit on the side of your bed without worry while leaving a perfect sleeping service.
- Extra long control cord can't be misplaced. Easy to find in the middle of the night.
- Specially designed Comfort pad increases support, decreases pressure points. This layer may be placed under air chamber for extra firm support.
- Vapor barrier covering prevent mildew caused by other air products.
- The hand held firmness control allows each sleeper to adjust the mattress to their desired firmness or softness. At the touch of a button - each sleeper can adjust their side of the air mattress to any level of luxury firmness - from extra firm to featherbed soft - all without any effect to the other side of the air mattress.

### BENEFITS:

- Adjustable mattress firmness/softness allows for total sleep satisfaction. With firmness adjustment you can meet your personal physiology needs, align your spine and have relief from pressure point discomfort caused by a hard mattress surface. Because of these, and so many other variables to restful, satisfying sleep, it makes good sense to have the ability to adjust them all. Exactly what your Adjustable Firmness Air Mattress provides!
- Whether you sleep on your side, back or stomach - are tall, short, slim, average or weigh above average - sleep alone or with a partner - you can adjust your side of your air mattress to your own personal level of comfort - all at the touch of a button - for your most satisfying sleep - ever!

the air chamber provide quick adjustment.  
No cumbersome hoses or wires. Industry's  
finest UL listed air pump. Made in the USA.

Sonair Comfort Cloud has removable top for  
easy set up, repair and cleaning.

Specially Designed Comfort Pad increases  
support, decreases pressure points and  
incorporates a vapor barrier to prevent mildew.  
May be placed under chambers for an extra  
firm range of adjustment

15 year pro-rated warranty at 50% until the end.  
Read Manufacturers warranty for details.

## **OTHERS**

4" Shallow depth air chambers give small range  
of adjustment, bottoms out easily

Imported cloth backed rubber mattress, sustains  
combustion, least safe

Cloth Backed rubber does not conform to the  
body in an elastic caressing manner as elastic  
PVC is able to

Single Pump, remotely located. Longer time  
to adjust, more noise. (1-2 minutes) adjusts only  
one side at a time.

Remote Control can be misplaced.  
Must hunt for it in the middle of the night.

Separate air pump located on the floor where  
hoses and wires can become disconnected.

Sometime not UL listed. Foreign made.  
Questionable safety, performance and reliability.

Most tops do not detach. More difficult set-up  
and cleaning

Not Available.
